Professional Summary

Front-end developer with over 3 years of experience in building web applications using React and Next.js. Passionate about enhancing user experience and writing clean, organized code. Seeking an opportunity to contribute to dynamic tech teams and build innovative solutions.

Work Experience

Freelancing online, delivering all projects to clients on time and with the required quality. Worked on several projects ranging from academic and official to personal and initiative-based.

Projects: (Projects can be reviewed via the personal website link or GitHub profile)

1. **Product Management System**
   A web application based on JavaScript providing CRUD (Create, Read, Update, Delete) functionalities for managing products. Built using HTML, CSS, and JavaScript with data stored in memory or LocalStorage.
   Technologies: JavaScript, HTML, CSS, LocalStorage

2. **CSS Animation Showcase**
   A dedicated website showcasing advanced graphics using CSS only, focusing on transitions and visual effects to engage users.
   Technologies: HTML, CSS Animations, Responsive Design

3. **High-Quality Image Website with Scroll Animation Effects**
   A website displaying high-resolution images from open sources, integrating scroll animation techniques using JavaScript to create a dynamic and attractive user experience.
   Technologies: JavaScript, HTML, CSS, Scroll Animation Libraries

4. **AI Image Generator**
   A web app that fetches AI-generated images using an external API. Includes an interactive interface that displays images based on user queries.
   Technologies: JavaScript, Fetch API, HTML, CSS

5. **Personal Portfolio Website**
   A portfolio website designed using Next.js with various React libraries to create a smooth and attractive UI reflecting skills and past projects.
   Technologies: Next.js, React, Tailwind CSS, Framer Motion, React Icons

6. **Multi-User Blog with Firebase**
   A blog system based on Firebase for login, article storage, and permission management without the need for a backend server.
   Technologies: Next.js, Firebase (Auth, Firestore), NextAuth, JavaScript

Academic Qualifications

Computer and Information Engineering – Damascus University (2022 – Present)
Syria – Damascus

Skills

- **Technologies:** HTML, CSS, Tailwind, JavaScript, React, Next.js, Firebase

- **Tools:** Git, GitHub, VS Code, Canva, Postman

- **Soft Skills:** Teamwork, Problem Solving, Time Management, Communication Skills

Courses and Certifications

HTML & CSS Course – Udemy – 2022
JavaScript Course (Beginner to Advanced) – Tarmeez Academy – 2022
